Voice of Recovery

"I first became interested in the medical field when I was still attending High School. I feel that as an Emergency Medical Technician, I would be a part of a team that is dedicated to high standards of patient care. My long term career goal is to return to school and become a Registered Nurse specializing in IV Therapy."

- W.T. Louisville, KY

Voice of Recovery

"Like many other Americans, when the recession hit, it hit home for us. My husband lost his job due to a failing economy and the future is not looking so bright for his particular trade. My goal for the near future is to have a rewarding job. I definitely feel like I could make a difference as a CNA. I have a desire to help people who are in need of being helped."

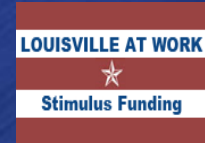

- C.W. Louisville, KY

"The goal of the Louisville at Work teams are to maximize job creation in the private sector and to make a lasting difference in our hometown."

-Mayor Abramson
